

The Track Planner Room Questionnaire

Room/Space Information

The information you supply below is by far the most important part of the design phase. I need **specific** and **accurate** measurements of the available space. I need information regarding all immovable obstructions and their exact locations. This is critical to designing an accurate track plan. Please answer the questions listed below and supply me a drawing of the available space, including all obstructions.

Room/Space Shape:

(square, rectangular, L-shape, irregular)

Room/Space Dimensions:

(must be accurate to the inch! include below)

Immovable Obstructions:

(include all with measurement below)

Stairways:

(include stairways, with measurements)

Door and Windows:

(include doors & windows with measurements below)

Irregular Jot Outs in Room:

(include any unusual jot outs with measurement below)

Please use the blue outlined space below or a separate piece of paper to draw a reasonable facsimile of the available space. Please include all obstructions (with measurements) that could affect the design. When finished email to: thetrackplanner@gmail.com
